About Me

Fresh Graduated **Informatics Engineering Student** from **Dian Nuswantoro University** with a strong academic background and practical experience in **Web Development**, **iOS Mobile Development** and **Machine Learning**. Driven by a deep curiosity and a tenacious approach to problem-solving, I am passionate about leveraging technology to solve real-world problems and create impactful digital solutions. Eager to contribute to innovative projects and actively seeking any experience to further develop my technical expertise.

PROJECT/INTERNSHIP EXPERIENCE

[Invitato, Semarang - Internship](#)

November 2025 - February 2025

- Developed wedding invitation websites tailored to client requirements and maintained regular communication to ensure customer satisfaction.
- Built and improved the core website system for Invitato to accelerate production using JavaScript frameworks such as **React.JS**, **Express.JS**
- Actively participated in brainstorming sessions to generate ideas for future business development and product improvement.

[PPK Ormawa Himpunan Mahasiswa Teknik Informatika UDINUS - Voulenteer](#)

April 2025 - December 2025

- Developing an e-commerce platform using **Laravel** for robust backend functionalities and **React.JS** for a dynamic, responsive frontend.
- The platform's primary objective is to **empower local villages by providing a marketplace to sell their products and showcase their village profiles**, fostering entrepreneurship and economic development within rural communities.

[Diskominfo Semarang, Semarang — Internship](#)

July 2025 - August 2025

- Develop community platform website for Diskominfo Semarang to showcase local communities to attract new members.
- Develop using **React.JS** as frontend framework and **Express.JS** as backend framework
